A General Permission Note was sent home last week. This note has 4 sections.

- A general excursion consent - This will save parents having to sign separate permission notes every time students take part in a planned activity either at school or in our local area. Details of these activities will always be advised to parents prior to the event.
- Publication of students work and photos - This gives permission for photos and student’s work to be published either in the newsletter, on the website and in other Department promotions.
- Media consent - This gives permission for students to be named, photographed and their work published in local media i.e. Glen Innes Examiner, 2NZ school news and in local business houses.
- Supervision - This is an acknowledgement of times that staff are providing supervision for students at school.

A separate note was also sent home to update students medical and emergency contact details. Please complete and sign both these forms and return to school. If you have any concerns or require any further information please contact the school.

Small Schools Cross Country

The Glen Innes Severn Council Youth and Community Services operate an ‘Outreach Playgroup’ at our school every Monday from 9.30am - 11.30am during school terms. This is a great opportunity for parents and young children to come together in a supportive environment and enjoy a range of activities. If you know of any families who you think would enjoy being a part of our playgroup please let them know.
**AWARDS Week 4**

**Super Spellers**
Sophyra
Alex
Emily
Liam

**Mathletics Awards**
Jordyn - 1260 points
Chelsea - 9279 points

**Class Awards**
Shania - Art Certificate
Jordyn - Art Certificate
Austin - Star Student
Thomas - Great maths work
Jaydan - Merit award

---

**AWARDS Week 5**

**Super Spellers**
Sophyra
Alex

Marika

**Mathletics Awards**
Sophyra - 1020 points
Shimmer - 1220 points

**Class Awards**
Shimmer - Excellent work in Maths
Taylor - Outstanding results in Maths
Johnathan - Excellent work in Maths using number sentences.
BRILLIANT K/1J

This week in K/1J we explored the topic ‘Where does foods come from’ in HSIE. In Maths we learnt about time and how to tell time, then we went into learning our months and seasons. In Kindergarten we have started to learn our blends and we are becoming very good spellers. Our Year 1 girls are turning into fantastic spellers as well!! Keep up the good work!!!

SPLENDID 2/3S

We have all been very busy! We are continuing our learning about “State and National Parks”. In Maths we have been exploring about Measurement with a particular focus on Mass. Library day will happen on TUESDAY! Also... if anyone has any “clear” 2 litre containers could they please be brought in for a HSIE activity later this term. At home we would love to encourage the students to read every night and use MATHLETICS (1000 points is required to earn a Bronze Certificate).

SUPERB 4/5/6M

This week has been busy but exciting as our students have been learning about another culture being Bali. Students have had a great time researching Bali and then produced amazing ‘holiday brochures’. Time has been our topic for Numeracy where students are involved in learning about digital and analogue time. During literacy students have created fantastic stories in relation to narratives with a focus on adjectives to make the stories more interesting. During science students were involved in hands on activities learning about different forces involved with movement.

In Science this week K/1J enjoyed writing and illustrating short stories about the weather. We have also been looking at the types of Seasons and the weather conditions associated with these. 2/3S spent their Science lesson this week locating and identifying on a school map all the sources of water found around our school. Students were required to follow a map and create a key to represent the different types of water sources. On Thursday 4/5/6M enjoyed participating in a number of activities that involved using types of forces to move objects. Some of the forces used were blowing, throwing, shaking, rolling, swinging, hitting and flicking.

LAKE AINSWORTH EXCURSION

Years 3, 4, 5 & 6 students who have indicated they would like to go to Lake Ainsworth in Term 4 should have returned their note and paid their deposit. Remember just 24 weekly payments of $10 is all that is needed to pay for this excursion by 26th June 2015.
